

The Smart Choice for Enterprise Software

## Government Management

---

**CityShare®** is a complete platform of easy to use suites and applications designed specifically for Local Government's unique budgeting, operating and financial requirements. Our intuitive enterprise level software is modular and fully integrated allowing users to start with a basic system while affording the flexibility to add scalable functionality and features as needs expand and grow more complex. **CityShare®** is developed using industry standard client server and web enabled architecture combined with enhanced collaboration tool sets that will satisfy your needs now and in the future. We know you need to do more with less – fewer resources - fewer keystrokes - faster results. This is why our products are designed to be the Smart Choice for Enterprise Software!

The **CityShare® Government Management Suite** is our unique system that makes critical municipal data available to key decision makers in real-time! It includes our Government Manager Dashboard which provides single-click access to data. Key staff members can stay informed about municipal operations by viewing inspection schedules, checking the status of residents' requests, maintaining property records, and monitoring cash flow and receivables all from a single desktop application! The system also provides the ability to create transactions such as purchase requests, departmental time transactions, and even submit departmental budgets. All applications utilize a consolidated database with a secure user login with access control, departmental reporting and electronic signoffs. The applications provide workflow controls to send notifications or emails to users based on predefined workflow events.

### Other Suites in the CityShare® Enterprise Solution

**Financial Management** is a complete and fully integrated multi fund accounting system for local government entities.

**Revenue Management** is a municipal billing and collection solution designed for local government utility operations that expedites bill processing, cash collection and control.

**Employee Management** provides all required functions of a complex Public Sector Payroll & Human Resources with integrated G/L & optional position control.

**Land Management** is a single tool for land use control and planning designed to manage all application, permit and violation documents featuring a centralized parcel database.

**Tax Management** is a comprehensive, modular billing solution for municipal governments that provides collection and reporting tools to automate tax billing requirements.
